2. VI. 97.

My dear Dewar,

Mrs. Fraser has just been to me. I mean our friend of last Sunday, not the Tutor & Governor! It seems to be clear that to take up enough of the Bishopsdown Estate to render the house private, and free from encroachments

down, with the Sea Estate
adjoining, rights of way
(as) in all
directions through the pro-
perty, and a private car-
riage driving road about
to be built just below
the house, would be en-
tirely shorn of the privacy
which every one
I should like before I go
down if possible to settle

the question of hiring a house for next year. There is apparently no house likely to be vacant near Jerrihill. May I enquire about some house. Woodlocell House may I hear be available. Possibly General Tillard may consent to let for one year, but if the matter is left open

Dear Sir K. Sheshadri Ayar

I hear that you [illegible]
wants to buy a house for
the use of the Resident
up here, so many
will let you know that
this house is for sale. Our
only reason for wishing to
sell is that we have
up next year — but were
thinking of beginning
advertise the house early

next year do as possible & be able to sell it before we leave the country — But we would sell at once & look out for another home to occupy next season, if we could find a purchaser. It is nearly 18 years since I bought the place & during all that time we have constantly been making improvements so as to make it thoroughly comfortable.

Believe me

Yours truly

My dear Mr. Kirkaldy

Mr. Blacker of Bishops down tells me that Govt had offered to purchase his property. He seems anxious to sell & therefore if there be any intention to purchase I may be able to strike a bargain

write from Lee saying
that we had got a letter
from Mr. Fraser about Bishopsdown
and we telegraphed to
him to say that the Duchess
do not wish to purchase
Bishopsdown at the price

recommend the whole
property being purchased
as it will rise in
value fast.

I shall be returning

With best respects

all is well Remain
